INDEPENDENT AUDITOR'S REPORT

Great Gray Trust Company, LLC, Trustee for Great Gray Collective Investment Trust

Opinion

We have audited the financial statements of the funds sub-advised by Janus Henderson Investors US LLC of Great Gray Collective Investment Trust, comprising the funds (the "Funds") on the Fund Index on page 3, which comprise the statements of assets and liabilities, including the schedules of investments, as of December 31, 2023, the related statements of operations and changes in net assets, and the financial highlights for the year then ended, or for the period then ended for inception dates in 2023, and the related notes to the financial statements. These financial statements and financial highlights are hereinafter collectively referred to as financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of each of the Funds as of December 31, 2023, and the results of its operations, changes in its net assets and its financial highlights for the year then ended, or for the period then ended for inception dates in 2023, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Funds and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about each Fund's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve

collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of each Fund's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about each Fund's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Other Matter

Our audits were conducted for the purpose of forming an opinion on the financial statements of each Fund as a whole. The supplementary information for the year ended December 31, 2023, or for the period then ended for inception dates in 2023, following the schedule of investments, is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements and certain additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Notes to the Financial Statements

December 31, 2023

Note 1 – Organization

Great Gray Collective Investment Trust (the "Trust") is intended to constitute an exempt trust under Section 501(a) of the Internal Revenue Code of 1986, as amended (the "Code"), and a group trust within the meaning of Rev. Rul. 81-100, as amended. The Trust is exempt from registration under the Investment Company Act of 1940, as amended, and the Securities Act of 1933, as amended. Great Gray Trust Company, LLC (the "Trustee") serves as the Trustee of the Trust.

The Trustee is responsible for maintaining and administering the Trust and its various funds (the "Funds" – see Fund Index) and also serves as the investment manager (the "Investment Manager") to the Funds. Northern Trust Company provides custody, transfer agency, and accounting services for the Funds.

On December 19, 2022, Madison Dearborn Partners, LLC ("MDP"), a registered investment adviser and leading private equity firm based in Chicago, announced an agreement with Wilmington Trust, N.A. ("WTNA"), under which investment funds controlled by MDP would acquire WTNA's Collective Investment Trust business. On April 28, 2023, the agreement was finalized and Great Gray Trust Company, LLC became the successor trustee to WTNA's CIT business. On that date, the Trust name was changed from Wilmington Trust Collective Investment Trust to Great Gray Collective Investment Trust. The Trustee is ultimately controlled by MDP. MDP and its controlled subsidiaries are the general partner to the investment funds that own substantially all of the Trustee through intermediate holding companies.

The purpose of the Trust is to allow collective investments by plan sponsors of retirement plans which qualify for exemption from federal income taxation pursuant to Section 501(a) of the Code, by reason of qualifying under Section 401(a) of the Code; tax-exempt governmental plans under Section 414(d) or Section 818(a)(6) of the Code; eligible deferred compensation plans under Section 457(b) of the Code established by a government employer; group trusts or separate accounts consisting solely of assets of the foregoing; and other investors eligible for participation in the Trust. The Trust consists of separate funds with differing investment objectives, which are available for investment by participating plans. An eligible plan may join the Trust, subject to the Trustee's acceptance, and become a participating plan by executing participation documents specified by the Trustee. Not all funds within the Trust are presented herein. The Trustee has claimed an exclusion from the definition of commodity pool operator ("CPO") under the Commodity Exchange Act and the rules of the Commodity Futures Trading Commission ("CFTC") with respect to the Funds, and is therefore not subject to CFTC registration or regulation as a CPO with respect to the Funds.

The Trustee has engaged Janus Henderson Investors US LLC (the "Sub-Advisor") to provide investment advice and recommendations with respect to investment of the Funds' assets. The Trustee maintains ultimate fiduciary authority over the management of and investments made in each Fund. The Sub-Advisor is engaged pursuant to a sub-advisor agreement.

Note 2 – Significant Accounting Policies

The accompanying financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP"). The Funds are investment companies and follow the accounting and reporting guidance in Financial Accounting Standards Board Accounting Standards Codification Topic No. 946.

Notes to the Financial Statements (continued)

December 31, 2023

Net Asset Value ("NAV") – Units of each fee class of each Fund are valued each day on which the New York Stock Exchange ("NYSE") is open for trading in accordance with the valuation procedures established by the Trustee. The NAV per unit is calculated as of the close of trading on the NYSE (generally, 4:00 p.m. U.S. Eastern time). The NAV per unit is computed by dividing the total fair value of the assets of each Fund, less its liabilities, by the total number of units outstanding at the time of such computation. Investment income earned is reinvested in each Fund and included in the determination of unit values.

Fund Unit Transactions – The Funds sell new units and repurchase outstanding units on a daily basis. Unit purchases and redemptions are transacted at the NAV per fee class of the Funds determined as of the close of business each day. A summary of the Fund unit activity for each Fund is included with its Financial Highlights.

The Funds require a plan sponsor to provide advance written notice of five business days for plan sponsor directed withdrawals which will exceed \$1 million of the assets invested in each Fund.

Investment Valuation – Investments are valued at their current fair value determined as follows:

Collateralized Mortgage Obligations – The Funds may invest in collateralized mortgage obligations ("CMOs") and real estate mortgage investment conduits ("REMICs"). A CMO is a bond that is collateralized by a pool of mortgage-backed securities ("MBS"), and a REMIC is similar in form to a CMO. These MBS pools are divided into classes or tranches with each class having its own characteristics. The different classes are retired in sequence as the underlying mortgages are repaid. For instance, a planned amortization class ("PAC") is a specific class of mortgages, which over its life will generally have the most stable cash flows and the lowest prepayment risk. A graduated payment mortgage ("GPM") is a negative amortization mortgage where the payment amount gradually increases over the life of the mortgage. The early payment amounts are not sufficient to cover the interest due, and, therefore, the unpaid interest is added to the principal, thus increasing the borrower's mortgage balance. Prepayment may shorten the stated maturity of the CMO and can result in a loss of premium if any has been paid.

Fixed Income Securities – The fair value of fixed income securities is estimated using various techniques, which may consider recently executed transactions in securities of the issuer or comparable issuers, market price quotations (when observable), and other industry recognized techniques. Although most fixed income securities are categorized in level 2 of the fair value hierarchy, in instances when lower relative weight is placed on transaction prices, quotations, or other similar observable inputs, they are categorized in level 3.

Forward Foreign Currency Contracts – A forward foreign currency contract is a commitment to purchase or sell a foreign currency at a future date at a negotiated forward rate. Risk associated with such contracts includes movement in the value of the foreign currency relative to the U.S. dollar and the potential inability of the counterparty to meet the terms of the contract. The Funds may purchase or sell currencies and/or engage in forward foreign currency transactions in order to expedite settlement of portfolio transactions and to manage currency risk.

The Funds may enter into forward contracts to sell, for a fixed amount of U.S. dollars or other appropriate currency, an amount of foreign currency, to the extent that the value of the short forward contract is covered by the underlying value of securities denominated in the currency being sold. Alternatively, when the Funds enter into a forward contract to sell an amount of foreign currency, the Funds' custodian will place assets in a segregated account of the Funds in an amount not less than the value of the Funds' total assets. If the assets placed in the account decline,

additional cash or securities will be placed in the account on a daily basis so that the value of the account will equal the amount of the Funds' commitments with respect to such contracts. The unrealized gain, if any, represents the credit risk to the Funds on a forward foreign currency contract. Fluctuations in the value of the open forward foreign currency contracts are recorded daily for book purposes as unrealized gain or loss on foreign forward currency contracts by the Funds. Realized gains and losses include net gains and losses recognized by the Funds on contracts which have been sold or matured.

Futures Contracts – The Funds may purchase futures contracts to gain exposure to market changes, which may be more efficient or cost effective than actually buying the securities. The Funds utilize futures contracts for tactical hedging purposes as well as to enhance the Funds' returns. Upon entering into such a contract, the Funds are required to deposit and maintain as collateral such initial margin as required by the exchange on which the contract is held. The contracts are marked to market daily and the resulting changes in value are accounted for as unrealized gains and losses. Variation margin payments are paid or received, depending upon whether unrealized losses or gains are incurred. When the contract is closed, the Funds record a realized gain or loss equal to the difference between the proceeds from (or cost of) the closing transaction and the amount invested in the contract. Net realized and unrealized gains or losses occurring during the holding period of futures are found on the Statement of Operations as a component of net realized gain (loss) on futures contracts and as a component of net change in unrealized gain / loss on futures contracts.

Risks of entering into futures contracts include the possibility that there will be an imperfect price correlation between the futures and the underlying securities. Second, it is possible that a lack of liquidity for futures contracts could exist in the secondary market, resulting in an inability to close a position prior to its maturity date. Third, the futures contract involves the risk that the Funds could lose more than the original margin deposit required to initiate a futures transaction. Finally, the risk exists that losses could exceed amounts disclosed on the Statement of Assets and Liabilities.

Money Market Trusts – Investments in money market trusts are valued using the net asset value per share (or its equivalent) as a practical expedient.

Securities – Securities, other than bonds, listed on a securities exchange, market or automated quotation system for which quotations are readily available are valued at the closing price on the primary exchange or market on which they are traded on the day of valuation or, if there is no such reported sale on the valuation date, at the most recent bid quotation on the principal exchange. If a market price is not readily available or if such price is deemed unreliable, it will be valued at fair value in accordance with valuation procedures established by the Trustee. The Trustee's determination of fair value involves consideration of a number of subjective factors, and therefore, no single standard for determining fair value will apply.

When the valuation methods described above are not reflective of fair value, investments are valued at fair value following procedures and/or guidelines determined by or under the direction of the valuation committee established by the Trustee. In light of the judgment involved in fair value decisions, there can be no assurance that a fair value assigned to a particular investment is accurate.

Cash and Cash Equivalents – The Funds consider all highly liquid instruments with original maturities of three months or less at the acquisition date to be cash equivalents.

Investment Transactions and Investment Income – The Funds record security transactions on a trade date basis. Dividend income is recorded on the ex-dividend date. Net realized gains and losses on investments are determined by the first-in, first-out method. Interest income and expenses are recorded daily on the accrual basis.

Fee Classes and Allocations – The Funds may offer multiple fee classes. Not all fee classes are available for investment by all plans. Each class is allocated expenses on the basis of expense loads assigned to that class. Income, expenses (other than expenses attributable to a specific class), and realized and unrealized gains or losses on investments are allocated to each fee class based on the units outstanding for the fee class in proportion to the total outstanding units.

Use of Estimates – The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Guarantees and Indemnifications – Under the Funds' organizational documents, each trustee, officer, employee and agent of the Trust is indemnified, to the extent permitted by law, against certain liabilities that may arise in the performance of their duties to the Funds.

Additionally, in the normal course of business, the Funds enter into contracts that contain a variety of indemnification clauses. The Funds' maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, none of the Funds has had prior claims or losses pursuant to these contracts and the Trustee believes the risk of loss to be remote.

Income Tax Status – The Trust has received a determination from the Internal Revenue Service that the Trust is exempt from federal income taxation under Section 501(a) of the Code. Accordingly, no federal income tax provision is required.

Subsequent Events – The Trustee has evaluated the effect of subsequent events on the Funds' financial statements through April 29, 2024, which is the date the financial statements were available to be issued, and has determined that there are no material subsequent events that would require disclosure or adjustment in the Funds' financial statements through this date.

Note 3 - Fair Value Measurements

Fair value is defined as the price a fund would receive to sell an asset or pay to transfer a liability in an orderly transaction between market participants at the measurement date.

Various inputs are used in determining the fair value of the Funds' investments. The Trustee has performed an analysis of the significance and character of these inputs to the fair value determination. These inputs are summarized in the three broad levels listed below:

• Level 1 – Quoted prices in active markets for identical investments.

Funds Sub-Advised by Janus Henderson Investors US LLC

Notes to the Financial Statements (continued)

December 31, 2023

- Level 2 Other significant observable inputs (including quoted prices for similar investments, interest rates, credit risk, and others).
- Level 3 Significant unobservable inputs (including the Trustee's own assumptions in determining the fair value of investments).

The inputs or methodologies used for valuing investments are not necessarily an indication of the risk associated with investing in those investments. The aggregate fair value of the investments in each Fund, by input level used as of December 31, 2023, is included following each Fund's Schedule of Investments.

Note 4 – Fees and Expenses

Trustee, Sub-Advisor and Administrative Services Fees

Annualized asset-based fees are based upon the net assets as determined at the end of each preceding business day as set forth in the table below (in basis points). Except as otherwise noted, all asset-based fees are paid from the assets of the Funds.

⁽¹⁾ Sub-Advisor fee rate is 38 basis points and accrued at the investor level.

Trustee Fee – The Trustee receives an annualized fee for trustee and administrative services provided to each Fund. Trustee fees are based upon the average daily value of each Fund and are accrued daily, paid quarterly in arrears and charged against the assets invested in each Fund.

Sub-Advisor Fee – The Sub-Advisor is compensated for its investment advisory services provided to each Fund. These annualized fees are based upon the average daily value of each Fund and are accrued daily, paid quarterly in arrears and charged against the assets invested in each Fund.

Administrative Services Fee – These annualized fees are accrued daily and payable quarterly in arrears. These fees are intended to enable a participating plan to fund plan level fees and expenses paid to third parties for services, including, among others, participant recordkeeping and other administrative services provided to a participating plan.

Operating Expenses – In addition to the fees described above, the Funds bear expenses related to its operations, including, but not limited to, audit, custody, tax and legal services. Expenses incurred in connection with the investment and reinvestment of Funds' assets, including, without limitation, brokerage commission and other expenses, are also charged against the Funds.

Average notional value of sell contracts	\$ 11,744,209

(a) Positions were open for five months during the year.

For financial reporting purposes, the Funds do not offset derivative assets and derivative liabilities that are subject to netting arrangements in the Statements of Assets and Liabilities. In order to define its contractual rights and to secure rights that will help the Funds mitigate their counterparty risk, the Funds may participate in International Swaps and Derivatives Association, Inc. Master Agreements ("ISDA Master Agreement" or "ISDA") with derivative contract counterparties or enter into similar agreements covering foreign exchange contracts ("FX Letters"). An ISDA Master Agreement is a bilateral agreement between a fund and a counterparty that governs over the counter ("OTC") traded derivatives and foreign exchange contracts and typically contains, among other things, collateral posting terms and netting provisions in the event of a default and/or termination event. Under an ISDA Master Agreement, a fund may, under certain circumstances, offset with the counterparty certain derivative financial instrument's payables and/or receivables with collateral held and/or posted and create one single net payment. The provisions of the ISDA Master Agreement typically permit a single net payment in the event of default (close-out netting) including the bankruptcy or insolvency of the counterparty. Also, bankruptcy or insolvency laws of a particular jurisdiction may impose restrictions on or prohibitions against the right of offset in bankruptcy, insolvency or other events. An FX Letter is also a bilateral agreement between a fund and a counterparty and is limited to cover only foreign exchange contracts. FX Letters typically contain netting provisions covering events of default and do not require collateral to be posted. ISDAs and FX Letters containing netting provisions may be referred to as Master Netting Agreements ("MNA").

Note 6 – Related Party Transactions

The Trustee is a Nevada-chartered non-depository trust company that provides trust and custodial services for tax-advantaged retirement plans as well as trust and investment services to business pension and retirement plans. The Trustee is responsible for managing the Trust's investment and business affairs.

Note 7 - Risks Associated with Investing in the Funds

In the normal course of business, the Funds trade financial instruments and enter into financial transactions where risk of potential loss exists due to changes in the fair value of the investments.

The following are the principal risks of the Funds and are described in the Additional Fund Information and Principal Risk Definitions (www.greatgray.com/principalriskdefinitions):
