INDEPENDENT AUDITOR'S REPORT

Great Gray Trust Company, LLC, Trustee for Great Gray Collective Investment Trust

Opinion

We have audited the financial statements of Pioneer Multi-Sector Fixed Income Portfolio of Great Gray Collective Investment Trust (the "Fund"), which comprise the statement of assets and liabilities, including the schedule of investments, as of December 31, 2023, the related statements of operations and changes in net assets, and the financial highlights for the year then ended, and the related notes to the financial statements. These financial statements and financial highlights are hereinafter collectively referred to as financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as of December 31, 2023, and the results of its operations, changes in its net assets and its financial highlights for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Fund and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Fund's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are
 appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the
 Fund's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Fund's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter

Our audit was conducted for the purpose of forming an opinion on the financial statements of the Fund as a whole. The supplementary information for the year ended December 31, 2023, following the schedule of investments, is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Pioneer Multi-Sector Fixed Income Portfolio

Notes to the Financial Statements

December 31, 2023

Note 1 – Organization

Great Gray Collective Investment Trust (the "Trust") is intended to constitute an exempt trust under Section 501(a) of the Internal Revenue Code of 1986, as amended (the "Code"), and a group trust within the meaning of Rev. Rul. 81-100, as amended. The Trust is exempt from registration under the Investment Company Act of 1940, as amended, and the Securities Act of 1933, as amended. Great Gray Trust Company, LLC (the "Trustee") serves as the Trustee of the Trust.

The Trustee is responsible for maintaining and administering the Trust and Pioneer Multi-Sector Fixed Income Portfolio (the "Fund") and also serves as the investment manager (the "Investment Manager") to the Fund. State Street Bank and Trust Company provides custody, transfer agency, and accounting services for the Fund.

On December 19, 2022, Madison Dearborn Partners, LLC ("MDP"), a registered investment adviser and leading private equity firm based in Chicago, announced an agreement with Wilmington Trust, N.A. ("WTNA"), under which investment funds controlled by MDP would acquire WTNA's Collective Investment Trust business. On April 28, 2023, the agreement was finalized and Great Gray Trust Company, LLC became the successor trustee to WTNA's CIT business. On that date, the Trust name was changed from Wilmington Trust Collective Investment Trust to Great Gray Collective Investment Trust. The Trustee is ultimately controlled by MDP. MDP and its controlled subsidiaries are the general partner to the investment funds that own substantially all of the Trustee through intermediate holding companies.

The purpose of the Trust is to allow collective investments by plan sponsors of retirement plans which qualify for exemption from federal income taxation pursuant to Section 501(a) of the Code, by reason of qualifying under Section 401(a) of the Code; tax-exempt governmental plans under Section 414(d) or Section 818(a)(6) of the Code; eligible deferred compensation plans under Section 457(b) of the Code established by a government employer; group trusts or separate accounts consisting solely of assets of the foregoing; and other investors eligible for participation in the Trust. The Trust consists of separate funds with differing investment objectives, which are available for investment by participating plans. An eligible plan may join the Trust, subject to the Trustee's acceptance, and become a participating plan by executing participation documents specified by the Trustee. Not all funds within the Trust are presented herein. The Trustee has claimed an exclusion from the definition of commodity pool operator ("CPO") under the Commodity Exchange Act and the rules of the Commodity Futures Trading Commission ("CFTC") with respect to the Fund, and is therefore not subject to CFTC registration or regulation as a CPO with respect to the Fund.

The investment objective of the Fund is to provide a high level of current income from a diversified portfolio of U.S. and international high yield and investment grade securities by using a benchmark of Bloomberg U.S. Universal Index. The Trustee has engaged Amundi Pioneer Institutional Asset Management, Inc. (the "Sub-Advisor") to provide investment advice and recommendations with respect to investment of the Fund's assets. The Trustee maintains ultimate fiduciary authority over the management of and investments made in the Fund. The Sub-Advisor is engaged pursuant to a sub-advisor agreement.

Note 2 – Significant Accounting Policies

The accompanying financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP"). The Fund is an investment company and follows the accounting and reporting guidance in the Financial Accounting Standards Board ("FASB") Accounting Standards Codification Topic No. 946.

Pioneer Multi-Sector Fixed Income Portfolio

Notes to the Financial Statements (continued)

December 31, 2023

Net Asset Value ("NAV") – Units of each fee class of the Fund are valued each day on which the New York Stock Exchange ("NYSE") is open for trading in accordance with the valuation procedures established by the Trustee. The NAV per unit is calculated as of the close of trading on the NYSE (generally, 4:00 p.m. U.S. Eastern time). The NAV per unit is computed by dividing the total fair value of the assets of the Fund, less its liabilities, by the total number of units outstanding at the time of such computation. Investment income earned is reinvested in the Fund and included in the determination of unit values.

Fund Unit Transactions – The Fund sells new units and repurchases outstanding units on a daily basis. Unit purchases and redemptions are transacted at the NAV per fee class of the Fund determined as of the close of business each day. A summary of the Fund unit activity for the Fund is included with its Financial Highlights.

The Fund requires a plan sponsor to provide advance written notice of five business days for plan sponsor directed withdrawals which will exceed \$1 million.

Investment Valuation – Investments are valued at their current fair value determined as follows:

Collateralized Mortgage Obligations – The Fund may invest in collateralized mortgage obligations ("CMOs") and real estate mortgage investment conduits ("REMICs"). A CMO is a bond that is collateralized by a pool of MBS, and a REMIC is similar in form to a CMO. These MBS pools are divided into classes or tranches with each class having its own characteristics. The different classes are retired in sequence as the underlying mortgages are repaid. For instance, a planned amortization class ("PAC") is a specific class of mortgages, which over its life will generally have the most stable cash flows and the lowest prepayment risk. A graduated payment mortgage ("GPM") is a negative amortization mortgage where the payment amount gradually increases over the life of the mortgage. The early payment amounts are not sufficient to cover the interest due, and, therefore, the unpaid interest is added to the principal, thus increasing the borrower's mortgage balance. Prepayment may shorten the stated maturity of the CMO and can result in a loss of premium if any has been paid.

Corporate Bonds – The fair value of corporate bonds is estimated using various techniques, which may consider recently executed transactions in securities of the issuer or comparable issuers, market price quotations (when observable), and other industry recognized techniques. Although most corporate bonds are categorized in level 2 of the fair value hierarchy, in instances when lower relative weight is placed on transaction prices, quotations, or other similar observable inputs, they are categorized in level 3.

Forward Foreign Currency Contracts – A forward foreign currency contract is a commitment to purchase or sell a foreign currency at a future date at a negotiated forward rate. Risk associated with such contracts includes movement in the value of the foreign currency relative to the U.S. dollar and the potential inability of the counterparty to meet the terms of the contract. The Fund may purchase or sell currencies and/or engage in forward foreign currency relative settlement of portfolio transactions and to manage currency risk.

The Fund may enter into forward contracts to sell, for a fixed amount of U.S. dollars or other appropriate currency, an amount of foreign currency, to the extent that the value of the short forward contract is covered by the underlying value of securities denominated in the currency being sold. Alternatively, when the Fund enters into a forward contract to sell an amount of foreign currency, the Fund's custodian will place assets in a segregated account of the Fund in an amount not less than the value of the Fund's total assets. If the assets placed in the account decline, additional cash or securities will be placed in the account on a daily basis so that the value of the account will equal the amount of the Fund's commitments with respect to such contracts. The unrealized gain, if any, represents

Pioneer Multi-Sector Fixed Income Portfolio

Notes to the Financial Statements (continued)

December 31, 2023

the credit risk to the Fund on a forward foreign currency contract. Fluctuations in the value of the open forward foreign currency contracts are recorded daily for book purposes as unrealized appreciation or depreciation on foreign forward currency contracts by the Fund. Realized gains and losses include net gains and losses recognized by the Fund on contracts which have been sold or matured.

Futures Contracts – The Fund may purchase futures contracts to gain exposure to market changes, which may be more efficient or cost effective than actually buying the securities. The Fund utilizes futures contracts for tactical hedging purposes as well as to enhance the Fund's returns. Upon entering into such a contract, the Fund is required to deposit and maintain as collateral such initial margin as required by the exchange on which the contract is held. The contracts are marked to market daily and the resulting changes in value are accounted for as unrealized gains and losses. Variation margin payments are paid or received, depending upon whether unrealized losses or gains are incurred. When the contract is closed, the Fund records a realized gain or loss equal to the difference between the proceeds from (or cost of) the closing transaction and the amount invested in the contract. Net realized and unrealized gains or losses occurring during the holding period of futures are found on the Statement of Operations as a component of net realized gain on futures and as a component of net change in unrealized appreciation on futures.

Risks of entering into futures contracts include the possibility that there will be an imperfect price correlation between the futures and the underlying securities. Second, it is possible that a lack of liquidity for futures contracts could exist in the secondary market, resulting in an inability to close a position prior to its maturity date. Third, the futures contract involves the risk that the Fund could lose more than the original margin deposit required to initiate a futures transaction. Finally, the risk exists that losses could exceed amounts disclosed on the Statement of Assets and Liabilities.

Money Market Funds – Investments in money market funds are valued at the daily closing net asset value of the respective fund.

Mortgage-Backed Securities and Other Asset-Backed Securities – The Fund may invest in mortgage-backed securities ("MBS"), representing interests in pools of mortgage loans. These securities provide investors with payments consisting of both principal and interest as the mortgages in the underlying mortgage pools are paid. Most of the securities are guaranteed by federally sponsored agencies, but are not issued or guaranteed by the U.S. Treasury – Government National Mortgage Association ("GNMA"), Federal National Mortgage Association ("FNMA"), or Federal Home Loan Mortgage Corporation ("FHLMC"). However, some securities may be issued by private, non-government corporations. MBS issued by private entities are not government securities and are not directly guaranteed by any government agency but are secured by the underlying collateral of the private issuer. Yields on privately issued MBS tend to be higher than those of government-backed issues; however, risk of loss due to default and sensitivity to interest rate fluctuations is also higher.

The Fund may also invest in asset-backed securities, representing interests in pools of certain types of underlying installment loans or leases or revolving lines of credit. They often include credit enhancements that help limit investors' exposure to the underlying credit. These securities are valued on the basis of the timing and certainty of the cash flows compared to investments with similar durations.

Options – The Fund may write call and put options on indices, futures, swaps (swaptions), securities commodities or currencies. Writing put options tends to increase a fund's exposure to the underlying instrument. Writing call options tends to decrease a fund's exposure to the underlying instrument. When a fund writes a call or put option,

Pioneer Multi-Sector Fixed Income Portfolio

Notes to the Financial Statements (continued)

December 31, 2023

an amount equal to the premium received is recorded as a liability and subsequently marked-to-market to reflect the current value of the option written. Certain options may be written with premiums to be determined on a future date. Premiums received from writing options which expire are treated as realized gains. Premiums received from writing options which are exercised or closed are added to the proceeds or offset against amounts paid on the underlying futures, swap, security or currency transaction to determine the realized gain or loss. A fund as a writer of an option has no control over whether the underlying instrument may be sold (called) or purchased (put) and as a result bears the market risk of an unfavorable change in the price of the instrument underlying the written option. There is the risk a fund may not be able to enter into a closing transaction because of an illiquid market.

The Fund may also purchase put and call options. Purchasing call options tends to increase a fund's exposure to the underlying instrument. Purchasing put options tends to decrease a fund's exposure to the underlying instrument. A Fund will pay a premium which is included on the Fund's Statement of Assets and Liabilities and subsequently marked-to-market to reflect the current value of the option. Premiums paid for purchasing options which expire are treated as realized losses. Certain options may be purchased with premiums to be determined on a future date. The premiums for these options are based upon implied volatility parameters at specified terms. The risk associated with purchasing put and call options is limited to the premium paid. Premiums paid for purchasing options which are exercised or closed are added to the amounts paid or offset against the proceeds on the underlying investment transaction to determine the unrealized gain or loss.

The net realized gain or loss from options is reflected in the Statement of Operations and the net unrealized gains or losses are included as a component of the net change in unrealized gain or loss on derivative contracts in the Statement of Operations. The premium received for options sold is reflected in the Statement of Assets and Liabilities.

Securities – Securities, other than bonds, listed on a securities exchange, market or automated quotation system for which quotations are readily available are valued at the closing price on the primary exchange or market on which they are traded on the day of valuation or, if there is no such reported sale on the valuation date, at the most recent bid quotation on the principal exchange. If a market price is not readily available or if such price is deemed unreliable, it will be valued at fair value in accordance with valuation procedures established by the Trustee. The Trustee's determination of fair value involves consideration of a number of subjective factors, and therefore, no single standard for determining fair value will apply.

Swap Agreements – The Fund may invest in swap agreements. Swap agreements are privately negotiated agreements between the Fund and a counterparty to exchange or swap investment cash flows, assets, foreign currencies or market-linked returns at specified, future intervals. The Fund may enter into credit default and other forms of swap agreements to manage their exposure to credit, currency, interest rate and commodity and inflation risk. In connection with these agreements, securities or cash may be identified as collateral in accordance with the terms of the respective swap agreements to provide assets of value and recourse in the event of default or bankruptcy/insolvency.

Payments received or made at the beginning of the measurement period are recorded as realized gains or losses on the Statement of Operations upon termination or maturity of the swap. Net periodic payments received or paid by the Fund is included as part of realized gains or losses on the Statement of Operations.

Entering into these agreements involves, to varying degrees, elements of credit, market and documentation risk in excess of the amounts recognized on the Statement of Assets and Liabilities. Such risks involve the possibility

Pioneer Multi-Sector Fixed Income Portfolio

Notes to the Financial Statements (continued)

December 31, 2023

that there will be no liquid market for these agreements, that the counterparty to the agreements may default on its obligation to perform or disagree as to the meaning of contractual terms in the agreements and that there may be unfavorable changes in interest rates.

The Fund's maximum risk of loss from counterparty credit risk is the discounted net value of the cash flows to be received from the counterparty over the contract's remaining life, to the extent that amount is positive. The risk is mitigated by having a master netting arrangement between the Fund and the counterparty and by the posting of collateral to the Fund to cover the Fund's exposure to the counterparty.

U.S. Government Obligations – The fair value of U.S. government obligations is estimated using various techniques, which may consider market observable data, such as reported sales of similar securities, broker quotes, yields, bids, offers, and reference data. Certain securities are valued principally using dealer quotations. Although most U.S. government obligations securities are categorized in Level 2 of the fair value hierarchy, in instances when lower relative weight is placed on transaction prices, quotations, or other similar observable inputs, they are categorized in level 3.

When the valuation method described above is not reflective of fair value, investments are valued at fair value following procedures and/or guidelines determined by or under the direction of the valuation committee established by the Trustee. In light of the judgment involved in fair value decisions, there can be no assurance that a fair value assigned to a particular investment is accurate.

Cash and Cash Equivalents – The Fund considers all highly liquid instruments with original maturities of three months or less at the acquisition date to be cash equivalents.

Foreign Currency Translation – The accounting records of the Fund are maintained in U.S. dollars. Investment securities and other assets and liabilities denominated in foreign currencies are translated daily into U.S. dollars using foreign currency exchange rates determined as of the close of regular trading on the NYSE. Purchases and sales of Fund securities, commitments under forward foreign currency contracts and income receipts are translated at the prevailing exchange rate as of the date of each transaction. Realized and unrealized gain or loss on the translation of foreign currency denominated investments is included as a component of net realized and unrealized gain or loss on investments in the Statements of Operations. Realized gain or loss on foreign currency transactions may include gains and losses from sales and maturities of foreign currency exchange contracts, gains and losses realized between the trade and settlement dates of foreign security transactions or the difference between the amount of net investment income accrued on foreign securities and the U.S. dollar amount actually received. Unrealized gain or loss on foreign currency transactions include gains and losses due to changes in the value of assets and liabilities, other than Fund securities, resulting from changes in exchange rates. Certain foreign exchange gains and losses included in realized and unrealized gains and losses are included in or are a reduction of ordinary income in accordance with U.S. federal income tax regulations.

Investment Transactions and Investment Income – The Fund records security transactions on a trade date basis. Dividend income is recorded on the ex-dividend date. Net realized gains and losses on investments are determined by the first-in, first-out method. Interest income and expenses are recorded daily on the accrual basis.

Fee Classes and Allocations – The Fund offers multiple fee classes. Not all fee classes are available for investment by all plans. Each class is allocated expenses on the basis of expense loads assigned to that class. Income, expenses

Pioneer Multi-Sector Fixed Income Portfolio

Notes to the Financial Statements (continued)

December 31, 2023

(other than expenses attributable to a specific class), and realized and unrealized gains or losses on investments are allocated to each fee class based on the units outstanding for the fee class in proportion to the total outstanding units.

Use of Estimates – The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Guarantees and Indemnifications – Under the Fund's organizational documents, each trustee, officer, employee and agent of the Trust is indemnified, to the extent permitted by law, against certain liabilities that may arise in the performance of their duties to the Fund.

Additionally, in the normal course of business, the Fund enters into contracts that contain a variety of indemnification clauses. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred. However, the Fund has no prior claims or losses pursuant to these contracts and the Trustee believes the risk of loss to be remote.

Income Tax Status – The Trust has received a determination from the Internal Revenue Service that the Trust is exempt from federal income taxation under Section 501(a) of the Code. Accordingly, no federal income tax provision is required.

Subsequent Events – The Trustee has evaluated the effect of subsequent events on the Fund's financial statements through April 29, 2024, which is the date the financial statements were available to be issued, and has determined that there are no material subsequent events that would require disclosure or adjustment in the Fund's financial statements through this date.

Note 3 – Fair Value Measurements

Fair value is defined as the price a fund would receive to sell an asset or pay to transfer a liability in an orderly transaction between market participants at the measurement date.

Various inputs are used in determining the fair value of the Fund's investments. The Trustee has performed an analysis of the significance and character of these inputs to the fair value determination. These inputs are summarized in the three broad levels listed below:

- Level 1 Quoted prices in active markets for identical investments.
- Level 2 Other significant observable inputs (including quoted prices for similar investments, interest rates, credit risk, and others).
- Level 3 Significant unobservable inputs (including the Trustee's own assumptions in determining the fair value of investments).

The inputs or methodologies used for valuing investments are not necessarily an indication of the risk associated with investing in those investments. The aggregate fair value of the investments in the Fund, by input level used as of December 31, 2023, is included following the Fund's Schedule of Investments.

Pioneer Multi-Sector Fixed Income Portfolio

Notes to the Financial Statements (continued)

December 31, 2023

Information about derivatives reflected as of the date of this report is generally indicative of the year activity ended December 31, 2023. For the year ended December 31, 2023, the Fund's average volume of derivative activities is as follows:

Futures:		
Average notional value of buy contacts	\$ 12,574,737	
Average notional value of sell contacts	\$ 62,240,304	
Credit Default Swaps:		
Average notional amount of sell contracts	\$ 2,145,000	
Centrally Cleared Credit Default Swaps:		
Average notional amount of buy contracts	\$ 5,127,877	
Average notional amount of sell contracts	\$ 2,880,000	(a)
Forward Foreign Currency Contracts:		
Average notional value of buy contacts	\$ 24,541,012	
Average notional value of sell contacts	\$ 20,434,264	
Purchased Options:		
Average notional value	\$ 13,666,878	
Written Options:		
Average notional value	\$ 3,369,393	(b)

(a) Positions were open for one month during the year.

(b) Positions were open for ten months during the year.

For financial reporting purposes, the Fund does not offset derivative assets and derivative liabilities that are subject to netting arrangements in the Statements of Assets and Liabilities. In order to define its contractual rights and to secure rights that will help the Fund mitigate their counterparty risk, the Fund may participate in International Swaps and Derivatives Association, Inc. Master Agreements ("ISDA Master Agreement" or "ISDA") with derivative contract counterparties or enter into similar agreements covering foreign exchange contracts ("FX Letters"). An ISDA Master Agreement Is a bilateral agreement between a fund and a counterparty that governs over the counter ("OTC") traded derivatives and foreign exchange contracts and typically contains, among other things, collateral posting terms and netting provisions in the event of a default and/or termination event. Under an ISDA Master Agreement, a fund may, under certain circumstances, offset with the counterparty certain derivative financial instrument's payables and/or receivables with collateral held and/or posted and create one single net payment. The provisions of the ISDA Master Agreement typically permit a single net payment in the event of default (close-out netting) including the bankruptcy or insolvency of the counterparty. Also, bankruptcy or insolvency laws of a particular jurisdiction may impose restrictions on or prohibitions against the right of offset in bankruptcy, insolvency or other events. An FX Letter is also a bilateral agreement between a fund and a counterparty and is limited to cover only foreign exchange contracts. FX Letters typically contain netting provisions covering events of default and do not require collateral to be posted. ISDAs and FX Letters containing netting provisions may be referred to as Master Netting Agreements ("MNA").

Collateral and margin requirements differ by type of derivative. Margin requirements are established by the broker for OTC traded derivatives or by the clearing house for exchange traded derivatives. Brokers can ask for margining in excess of the minimum in certain circumstances. Collateral terms are contract specific for OTC derivatives (foreign currency exchange contracts and options). For derivatives traded under an ISDA Master Agreement, the collateral requirements are typically calculated by netting the mark to market amount for each transaction under such agreement

Pioneer Multi-Sector Fixed Income Portfolio

Notes to the Financial Statements (continued)

December 31, 2023

and comparing that amount to the value of any collateral currently pledged by a fund and the counterparty. Generally, the amount of collateral due from or to a party has to exceed a minimum transfer amount threshold before a transfer has to be made. To the extent amounts due to a fund from its counterparties are not fully collateralized, contractually or otherwise, the fund bears the risk of loss from counterparty non-performance. The fund attempts to mitigate counterparty risk by only entering into agreements with counterparties that it believes have the financial resources to honor their obligations and by monitoring the financial stability of those counterparties.

The following table presents the Fund's derivative assets and liabilities net of amounts available for offset under ISDA Master Agreements and net of the related collateral received/pledged by the Fund as of December 31, 2023.

	Gross Value on Statement of Assets and Liabilities				N	et Amount Before		lateral ceived)/		
Counterparty		Assets	Liabilities		(Collateral	Pledged*		Net	Exposure [^]
Citibank, N.A.	\$	496,535	\$	(63,626)	\$	432,909	\$	-	\$	432,909
JPMorgan Chase Bank, N.A.		49,869		(41,646)		8,223		-		8,223
Morgan Stanley		178,203		-		178,203		-		178,203
	\$	724,607	\$	(105,272)	\$	619,335	\$	-	\$	619,335

* The actual amount of collateral received/pledged may be more than the amount reported due to over-collateralization.

^ Net amount represents the net receivable/payable that would be due from/to the counterparty in the event of default or termination. The net amount from OTC financial derivative instruments can only be netted across transactions governed under the same master agreements with the same counterparty.

Note 5 – Fees and Expenses

Trustee and Sub-Advisor Fees

Annualized asset-based fees are based upon the net assets as determined at the end of each preceding business day as set forth in the table below (in basis points). Except as otherwise noted, all asset-based fees are paid from the assets of the Fund.

Fee Class	Trustee Fee	Sub-Advisor Fee
Class R	8	0
Class R1	8	35

Trustee Fee – The Trustee receives an annualized fee for trustee and administrative services provided to the Fund. Trustee fees are based upon the average daily value of the Fund and are accrued daily, paid quarterly in arrears and charged against the assets invested in the Fund.

Sub-Advisor Fee – The Sub-Advisor is compensated for its investment advisory services provided to the Fund. These annualized fees are based upon the average daily value of the Fund and are accrued daily, paid quarterly in arrears and charged against the assets invested in the Fund.

Pioneer Multi-Sector Fixed Income Portfolio

Notes to the Financial Statements (continued)

December 31, 2023

To limit total annual operating expenses of the Fund, the Sub-Advisor may, at its sole discretion, decide to bear certain expenses of the Fund or to reduce the fee it receives for its sub-advisory services to the Fund. These arrangements may be discontinued by the Sub-Advisor at any time.

Operating Expenses – In addition to the fees described above, the Fund bears expenses related to its operation, including, but not limited to, audit, custody, tax and legal services. Expenses incurred in connection with the investment and reinvestment of Fund assets, including, without limitation, brokerage commission and other expenses, are also charged against the Fund.

Note 6 – Unfunded Loan Commitments

The Fund may enter into unfunded loan commitments. Unfunded loan commitments may be partially or wholly unfunded. During the contract period, the Fund is obligated to provide funding to the borrower upon demand. A fee is earned by the Fund on the unfunded loan commitment and is recorded as interest income on the Statement of Operations. Unfunded loan commitments are fair valued in accordance with the valuation policy described in Note 2 and unrealized appreciation or depreciation, if any, is recorded on the Statement of Assets and Liabilities.

As of December 31, 2023, the Fund had the following unfunded loan commitments outstanding:

Loan	F	Principal	Cost Value			Unrealized Appreciation		
CSG Elevate II, Inc.	\$	985,000	\$	985,000 \$		985,000	\$	

Note 7 – Related Party Transactions

The Trustee is a Nevada-chartered non-depository trust company that provides trust and custodial services for taxadvantaged retirement plans as well as trust and investment services to business pension and retirement plans. The Trustee is responsible for managing the Trust's investment and business affairs.

Note 8 – Risks Associated with Investing in the Fund

In the normal course of business, the Fund trades financial instruments and enters into financial transactions where risk of potential loss exists due to changes in the fair value of the investments.

The following are the principal risks of the Fund and are described in the Additional Fund Information and Principal Risk Definitions (<u>www.greatgray.com/principalriskdefinitions</u>):

Active Management, Bank Loans, Country or Region, Credit and Counterparty, Currency, Dollar Rolls, Emerging Markets, Fixed Income Securities, Forwards, Futures, High-Yield Securities, Industry and Sector Investing, Inflation/Deflation, Interest Rate, Investment-Grade Securities, Issuer, Long-Term Outlook and Projections, Market/Market Volatility, Maturity/Duration, Mortgage-Backed and Asset-Backed Securities, Sovereign Debt, Swaps, U.S. Government Obligations, Value Investing.
