### **Report of Independent Auditors**

To the Board of Managers of Great Gray Trust Company, LLC

# **Opinions**

We have audited the accompanying financial statements of each of the funds listed below (collectively referred to as the "Funds"), which comprise the statement of assets and liabilities, including the schedule of investments, as of December 31, 2024 and the related statements of operations and of changes in net assets, including the related notes, and the financial highlights for year then ended (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of each of the Funds listed below as of December 31, 2024, and the results of each of their operations, the changes in each of their net assets, and each of their financial highlights for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### **Basis for Opinions**

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audits of the Financial Statements section of our report. We are required to be independent of the Funds and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Funds' ability to continue as a going concern for one year after the date the financial statements are available to be issued.

### Auditors' Responsibilities for the Audits of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud

may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Funds' internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the
  aggregate, that raise substantial doubt about the Funds' ability to continue as a going
  concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

### **Notes to the Financial Statements**

# **December 31, 2024**

## Note 1 – Organization

Great Gray Collective Investment Trust (the "Trust") is intended to constitute an exempt trust under Section 501(a) of the Internal Revenue Code of 1986, as amended (the "Code"), and a group trust within the meaning of Rev. Rul. 81-100, as amended. The Trust is exempt from registration under the Investment Company Act of 1940, as amended, and the Securities Act of 1933, as amended. Great Gray Trust Company, LLC (the "Trustee") serves as the Trustee of the Trust.

The Trustee is responsible for maintaining and administering the Trust and its various funds (the "Funds" – see Fund Index) and also serves as the investment manager to the Funds. The Northern Trust Company provides custody, transfer agency, and accounting services for the Funds.

The Trustee is ultimately controlled by Madison Dearborn Partners, LLC ("MDP"), a registered investment adviser and private equity firm based in Chicago, IL. MDP and its controlled subsidiaries are the general partners to the investment funds that own substantially all of the Trustee through intermediate holding companies.

The purpose of the Trust is to allow collective investments by plan sponsors of retirement plans which qualify for exemption from federal income taxation pursuant to Section 501(a) of the Code, by reason of qualifying under Section 401(a) of the Code; tax-exempt governmental plans described in Section 401(a)(24) of the Code; eligible deferred compensation plans under Section 457(b) of the Code established by a government employer; group trusts or separate accounts consisting solely of assets of the foregoing; and other investors eligible for participation in the Trust. The Trust consists of separate funds with differing investment objectives, which are available for investment by participating plans. An eligible plan may join the Trust, subject to the Trustee's acceptance, and become a participating plan by executing participation documents specified by the Trustee. Not all funds within the Trust are presented herein. The Trustee has claimed an exclusion from the definition of commodity pool operator ("CPO") under the Commodity Exchange Act and the rules of the Commodity Futures Trading Commission ("CFTC") with respect to the Funds, and is therefore not subject to CFTC registration or regulation as a CPO with respect to the Funds.

The Trustee has engaged Brandywine Global Investment Management, LLC (the "Sub-Advisor") to provide investment advice and recommendations with respect to investment of the Funds' assets. The Trustee maintains ultimate fiduciary authority over the management of and investments made in each Fund. The Sub-Advisor is engaged pursuant to a sub-advisor agreement.

### Note 2 - Significant Accounting Policies

The accompanying financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP"). The Funds are investment companies and follow the accounting and reporting guidance in Financial Accounting Standards Board Accounting Standards Codification Topic No. 946.

**Net Asset Value ("NAV")** – Units of each fee class of each Fund are valued each day on which the New York Stock Exchange ("NYSE") is open for trading in accordance with the valuation procedures established by the Trustee. The NAV per unit is calculated as of the close of trading on the NYSE (generally, 4:00 p.m. U.S. Eastern time). The NAV per

### Notes to the Financial Statements (continued)

**December 31, 2024** 

unit is computed by dividing the total fair value of the assets of each Fund, less its liabilities, by the total number of units outstanding at the time of such computation. Investment income earned is reinvested in each Fund and included in the determination of unit values.

**Fund Unit Transactions** – The Funds sell new units and repurchase outstanding units on a daily basis. Unit purchases and redemptions are transacted at the NAV per fee class of the Funds determined as of the close of business each day. A summary of the unit activity for each Fund is included with its Financial Highlights.

The Funds require a plan to provide advance written notice of five business days for plan directed withdrawals which will exceed \$1 million or such other amount as may be determined by the Trustee, upon consultation with the Sub-Advisor, from time to time.

Investment Valuation – Investments are valued at their current fair value determined as follows:

Collateralized Mortgage Obligations – The Funds may invest in collateralized mortgage obligations ("CMOs") and real estate mortgage investment conduits ("REMICs"). A CMO is a bond that is collateralized by a pool of mortgage-backed securities ("MBS"), and a REMIC is similar in form to a CMO. These MBS pools are divided into classes or tranches with each class having its own characteristics. The different classes are retired in sequence as the underlying mortgages are repaid. For instance, a planned amortization class ("PAC") is a specific class of mortgages, which over its life will generally have the most stable cash flows and the lowest prepayment risk. A graduated payment mortgage ("GPM") is a negative amortization mortgage where the payment amount gradually increases over the life of the mortgage. The early payment amounts are not sufficient to cover the interest due, and, therefore, the unpaid interest is added to the principal, thus increasing the borrower's mortgage balance. Prepayment may shorten the stated maturity of the CMO and can result in a loss of premium if any has been paid.

**Fixed Income Securities** – The fair value of fixed income securities is estimated using various techniques, which may consider recently executed transactions in securities of the issuer or comparable issuers, market price quotations (when observable), and other industry recognized techniques. Although most fixed income securities are categorized in level 2 of the fair value hierarchy, in instances when lower relative weight is placed on transaction prices, quotations, or other similar observable inputs, they are categorized in level 3.

**Futures Contracts** – The Funds may purchase futures contracts to gain exposure to market changes, which may be more efficient or cost effective than actually buying the securities. The Funds utilize futures contracts for tactical hedging purposes as well as to enhance the Funds' returns. Upon entering into such a contract, the Funds are required to deposit and maintain as collateral such initial margin as required by the exchange on which the contract is held. The contracts are marked to market daily and the resulting changes in value are accounted for as unrealized gains and losses. Variation margin payments are paid or received, depending upon whether unrealized losses or gains are incurred. When the contract is closed, the Funds record a realized gain or loss equal to the difference between the proceeds from (or cost of) the closing transaction and the amount invested in the contract. Net realized and unrealized gains or losses occurring during the holding period of futures are found on the Statement of Operations as a component of net realized gain (loss) on futures contracts and as a component of net change in unrealized gain / loss on futures contracts.

# Funds Sub-Advised by Brandywine Global Investment Management, LLC

### Notes to the Financial Statements (continued)

December 31, 2024

Risks of entering into futures contracts include the possibility that there will be an imperfect price correlation between the futures and the underlying securities. Second, it is possible that a lack of liquidity for futures contracts could exist in the secondary market, resulting in an inability to close a position prior to its maturity date. Third, the futures contract involves the risk that the Funds could lose more than the original margin deposit required to initiate a futures transaction. Finally, the risk exists that losses could exceed amounts disclosed on the Statement of Assets and Liabilities.

**Money Market Trusts** – Investments in money market trusts are valued using the net asset value per share (or its equivalent) as a practical expedient in accordance with the specialized accounting guidance for investment companies.

Mortgage-Backed Securities and Asset-Backed Securities – The Funds may invest in MBS, representing interests in pools of mortgage loans. These securities provide investors with payments consisting of both principal and interest as the mortgages in the underlying mortgage pools are paid. Most of the securities are guaranteed by federally sponsored agencies (Government National Mortgage Association ("GNMA"), Federal National Mortgage Association ("FNMA"), or Federal Home Loan Mortgage Corporation ("FLMC")), but are not issued or guaranteed by the U.S. Treasury. However, some securities may be issued by private, non-government corporations. MBS issued by private entities are not government securities and are not directly guaranteed by any government agency but are secured by the underlying collateral of the private issuer. Yields on privately issued MBS tend to be higher than those of government-backed issues; however, risk of loss due to default and sensitivity to interest rate fluctuations is also higher.

The Funds may also invest in asset-backed securities, representing interests in pools of certain types of underlying installment loans or leases or revolving lines of credit. They often include credit enhancements that help limit investors' exposure to the underlying credit. These securities are valued on the basis of the timing and certainty of the cash flows compared to investments with similar durations.

Securities – Securities listed on a national securities exchange (other than securities listed on the NASDAQ OMX Group, Inc. ("NASDAQ")) are valued at the last sale price at the close of the exchange. If there has been no sale on such day, the securities are valued at the mean of the closing bid and asked prices on such day. Securities listed on more than one exchange are valued by reference to the principal exchange on which the securities are traded; securities listed only on NASDAQ are valued in accordance with the NASDAQ Official Closing Price. Securities traded in the over-the-counter market are valued at the mean of the current bid and asked prices as reported by the National Quotation Bureau or other comparable sources. Investments in short-term investment funds are valued at the daily closing net asset value of the respective fund, which approximates fair value.

When the valuation methods described above are not reflective of fair value, investments are valued at fair value following procedures and/or guidelines determined by or under the direction of the valuation committee established by the Trustee. In light of the judgment involved in fair value decisions, there can be no assurance that a fair value assigned to a particular investment is accurate.

**Cash and Cash Equivalents** – The Funds consider all highly liquid instruments with original maturities of three months or less at the acquisition date to be cash equivalents.

## Notes to the Financial Statements (continued)

# **December 31, 2024**

**Investment Transactions and Investment Income** – The Funds record security transactions on a trade date basis. Dividend income is recorded on the ex-dividend date. Net realized gains and losses on investments are determined by the first-in, first-out method. Interest income and expenses are recorded daily on the accrual basis.

Fee Classes and Allocations – The Funds may offer multiple fee classes. Not all fee classes are available for investment by all plans. Each class is allocated expenses on the basis of expense loads assigned to that class. Income, expenses (other than expenses attributable to a specific class), and realized and unrealized gains or losses on investments are allocated to each fee class based on the units outstanding for the fee class in proportion to the total outstanding units.

**Use of Estimates** – The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

**Guarantees and Indemnifications** – Under the Funds' organizational documents, each trustee, officer, employee and agent of the Trust is indemnified, to the extent permitted by law, against certain liabilities that may arise in the performance of their duties to the Funds.

**Income Tax Status** – The Trust has received a determination from the Internal Revenue Service that the Trust is exempt from federal income taxation under Section 501(a) of the Code. Accordingly, no federal income tax provision is required.

**Subsequent Events** – The Trustee has evaluated the effect of subsequent events on the Funds' financial statements through April 30, 2025, which is the date the financial statements were available to be issued, and has determined that there are no material subsequent events that would require disclosure or adjustment in the Funds' financial statements through this date.

### Note 3 - Fair Value Measurements

Fair value is defined as the price a fund would receive to sell an asset or pay to transfer a liability in an orderly transaction between market participants at the measurement date.

Various inputs are used in determining the fair value of the Funds' investments. The Trustee has performed an analysis of the significance and character of these inputs to the fair value determination. These inputs are summarized in the three broad levels listed below:

- Level 1 Quoted prices in active markets for identical investments.
- Level 2 Other significant observable inputs (including quoted prices for similar investments, interest rates, credit risk, and others).
- Level 3 Significant unobservable inputs (including the Trustee's own assumptions in determining the fair value of investments).

### Notes to the Financial Statements (continued)

### December 31, 2024

The inputs or methodologies used for valuing investments are not necessarily an indication of the risk associated with investing in those investments. The aggregate fair value of the investments in each Fund, by input level used as of December 31, 2024, is included following each Fund's Schedule of Investments.

### Note 4 - Fees and Expenses

### Trustee and Sub-Advisor Fees

Annualized asset-based fees are based upon the net assets as determined at the end of each preceding business day as set forth in the table below (in basis points). Except as otherwise noted, all asset-based fees are paid from the assets of the Funds.

<sup>&</sup>lt;sup>(1)</sup> For custody services only.

**Trustee Fee** – The Trustee receives an annualized fee for trustee and administrative services provided to each Fund. Trustee fees are based upon the average daily value of each Fund and are accrued daily, paid quarterly in arrears and charged against the assets invested in each Fund.

**Sub-Advisor Fee** – The Sub-Advisor is compensated for its investment advisory services provided to each Fund. These annualized fees are based upon the average daily value of each Fund and are accrued daily, paid quarterly in arrears and charged against the assets invested in each Fund.

<sup>(2)</sup> The Sub-Advisor has agreed to waive fees and/or reimburse expenses so that the annual total fees and expenses do not exceed 10 basis points for Class R-INT. These waivers and/or reimbursements may be reduced or terminated at any time.

<sup>(3)</sup> The Trustee fee will decrease as the total value of assets of all Trustee collective investment funds sub-advised by managers that are affiliates of Franklin Advisers, Inc. reaches certain threshold amounts.

<sup>(4)</sup> The Sub-Advisor has agreed to waive fees and/or reimburse expenses so that the annual total fees and expenses do not exceed 41 basis points for Class R3. These waivers and/or reimbursements may be reduced or terminated at any time.

<sup>(5)</sup> The Sub-Advisor has agreed to waive fees so that the annual total fees and expenses do not exceed 10 and 25 basis points for Class R-INT and Class V1, respectively. These waivers and/or reimbursements may be reduced or terminated at any time.

# **December 31, 2024**

**Operating Expenses** – In addition to the fees described above, each Fund bears expenses related to its operations, including, but not limited to, audit, custody, tax and legal services. Transaction fees and expenses incurred in connection with the investment and reinvestment of Fund assets, including, without limitation, brokerage commission and other expenses, are also charged against each Fund.

When assets of each Fund are invested in other investment vehicles, such as other Collective Funds or Exchange-Traded Funds, those investment vehicles will incur fees and expenses, which will be reflected in the performance results and value of each Fund's investment in such investment vehicle.
